Satisfied customers are proof that Alchemex™ is a valuable resource:

"We use Alchemex™ products extensively in our business. I believe that being able to obtain a "snapshot view" of your business is critical in today's business environment when there is so often just too much information floating about. Managers need to dedicate their skills to managing – not sifting through endless reports trying to make sense of heaps of information. Alchemex™ does this neatly and efficiently – with no fuss at all and delivers this information "on demand" and through Excel.

What more could you ask for?"

Steven Cohen, Managing Director, Pastel Software

"Our expectations have been exceeded in the way Alchemex™ delivers critical business information from our system. We have converted weeks of repetitive work every month into a few hours. Now that's what I call a measurable return on investment."

Ravind Sukdeo, Financial Director, Bidfreight Port Operations (Pty) Ltd (Member of the BIDvest Group Limited)

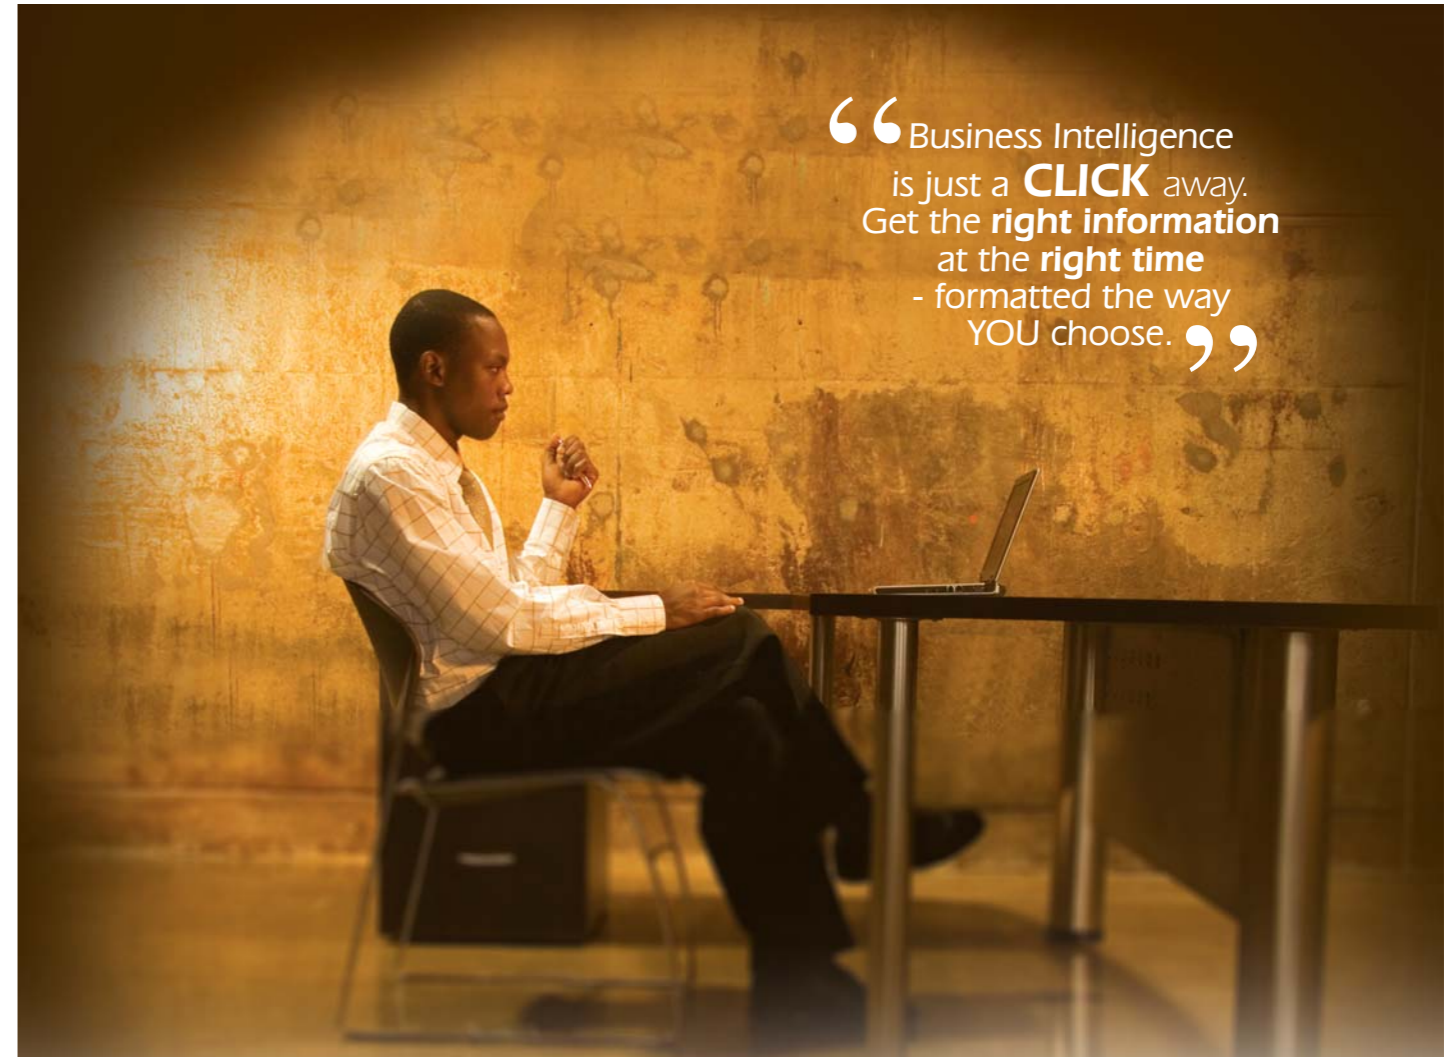

"I am really impressed with the programme. It saves me at least 3 to 5 days of number crunching at month-ends. For the first time ever I have been able to produce our financial results for the previous month well before the 10th of the following month. What is even better, everybody thinks I am the genius! This is certainly one of those programmes that, after implementing it, you wonder how you ever managed without it!"

Danie Bantjes, Group Financial Director, Top Security (Pty) Ltd.

"Alchemex™ is a must for any organisation serious about information – it's simple, it's Microsoft Excel. Possibly one of the shrewdest IT investments to date."

Wayne Lambson, Financial Director, Foreshore Ships Agency

"Business Intelligence is just a CLICK away. Get the right information at the right time - formatted the way YOU choose."

What is Alchemex™?

For decision makers in all companies who must have instant access to relevant information to remain competitive, **Alchemex™** provides "Intelligent Reporting" delivering formatted information directly into Excel at the click of a button. Unlike other proprietary reporting solutions and Excel links, Alchemex™ delivers a suite of pre-formatted Excel report templates for select install bases to get you up and running immediately.

Alchemex™ install bases options...

Alchemex™ delivers solution sets for a number of install bases to fast track solution delivery (not limited to financial reporting).

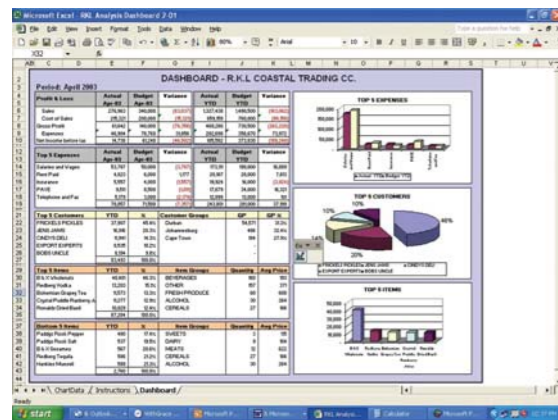

Alchemex™ offers solution sets for SYSPRO, ACCPAC, Pastel Partner (BIC), Pastel Evolution (BIC), Pastel Payroll (BIC), VIP Payroll (BIM), Sybiz Vision (BIC), SAP Business One, Sage Line 50, Dynamics GP.

Alchemex™ web options...

Deliver authenticated web reporting to your clients, partners, suppliers across intranets or the internet anywhere in the world without compromising security.

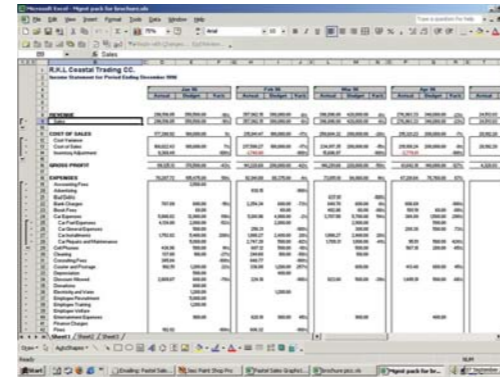

Alchemex™ dashboard options...

Display data from multiple disparate sources in a dashboard style view at the click of a button with on-the-fly drill down capabilities.

Alchemex™ management pack options...

Automate your monthly management pack and experience enhanced performance and presentation, eliminating repetition and manual intervention. **Consolidate** data across multiple companies, and **drill down** to detailed transactions.

Alchemex™ OLAP options...

Alchemex™ provides intelligent analysis of transactional data at the click of a button across finance, sales, inventory and other modules. Build your own cubes or hook into Microsoft Analysis Services.

Alchemex™ integration options...

Software vendors faced with reporting challenges in their applications can choose to integrate Alchemex™ with their offerings delivering flexibility and value to their client bases. Alchemex™ delivers a reliable alternative that leverages the investment that so many have made in Excel as a medium to share, analyse and present information.

Alchemex™ Training presents a number of courses countrywide to enhance delegates' MS Excel skills and improve report writing capabilities. Our trainers are experienced report writing consultants who have an extensive knowledge of Excel and its applicability to the financial reporting and BI market.

Training Courses include:

Bridging to Excel on Steroids (1 day)

This intermediate workshop provides self-taught Excel users with comprehensive all-round knowledge of MS-Excel.

Excel on Steroids (Three 1/2 day workshops)

Excel on Steroids (EOS) is a specialised training programme designed to develop the necessary skills to maximise the use of this powerful tool, to create business value. EOS focuses on turning an intermediate Excel user into an accomplished Excel report writer.

Workshop 1: Customised data analysis using PivotTables and PivotCharts

Workshop 2: Advanced business reporting using Formulas and Functions

Workshop 3: Management of Data Lists & Macros

Excel for Auditors (1 day)

Empowers auditors and accountants with Microsoft Excel skills to save valuable time by using this powerful tool more effectively and efficiently when analysing and consolidating audit information such as fixed assets and inventory.

Management Pack Training (1 day)

Addresses specific functionality around the more advanced applications of monthly reporting like divisional / branch reporting, segmentation, cash

flow, graphs and ratios. Learn the techniques used by expert consultants in preparing and customising Monthly Management Packs.

Alchemex™ Report Manager Training (1/2 day)

Covers the essential skills in running the Alchemex™ Report Manager application, including the creation, customising and running of reports, and a comprehensive overview of the management pack template and analysis tools.

Alchemex™ Consultant Training (1 day)

Develops comprehensive Alchemex™ report writing skills, from creating your own data containers to writing customised reports using advanced reporting tools.

Online Training

Online Training is also available to allow for flexible time management. Online training offers include:

- Excel on Steroids Workshops 1, 2 & 3
- Alchemex™ Report Manager Training
- Alchemex™ Consultant Training

Visit www.alchemex.net for more information.

Alchemex™ has a dedicated team of report writers and business analysts who can provide assistance and services related to delivering business value. These services include the installation, configuration and use of Alchemex™ software for immediate results, as well as customised report writing beyond

the standard install base templates. Our primary objective is to close the gap between technical software installations and business intelligence solutions, ultimately delivering a competitive advantage for customers.
