Payroll for Hospitality

Our payroll allows hospitality businesses to seamlessly manage employee onboarding, rostering, and timesheets, all the way to the pay run - in one system. We're a one of a kind workforce management solution designed to make your work life easier

Employee onboarding

Say goodbye to the paperwork associated with hiring new employees. A process that traditionally take weeks of back and forth can now be over in minutes! With employee self set up, employers can send a digital form to new joiners and let them enter their own personal information to instantly onboard themselves. The data will then automatically be lodged to the ATO - no more paper TFN forms. No more chasing.

Rostered shifts

Our powerful rostering tool caters for even the most complex scenarios. Set your roster based on employee cost, qualification, staff availability or location. No more frantic scrambling.

Shift swapping

Employees can easily swap and receive swapped shifts via the WorkZone app - no need for manager action.

Time & Attendance

Every business is different so we've created a flexible time and attendance platform that works the way you do. Our Clock Me In app allows employees to easily clock in and out at a fixed site, generating timesheets for staff and doing all the shift calculations for the payroll manager. Employees on the go can also choose to enter their clock in and out times via our mobile app WorkZone. No more paper timesheets, spreadsheets or uploading of data.

Pre-configured awards

Interpreting and implementing the General Retail Award can be confusing. So we do it for you. Simply install the award and you're 100% compliant with Fair Work.

Empower employees

Accepting and declining shifts, clocking on and off, viewing documents and logging leave can now all be done by your team, from their mobiles. Empower your employees to manage their own data via our mobile app, WorkZone, and never receive a request for a payslip again!

"Your payroll system has saved time and given us much more visibility of our costs. It's really intuitive and makes things a lot easier."

- Leanne Robertson, Group Accountant, Spicers Retreats
